

Award Winning Audio Visual Specialists

smartcomm
integrating technology with vision

Wellington House

Smartcomm has added an extra touch of luxury to the array of stunning penthouse apartments in the form of Land Securities development, Wellington House. The property consists of ten floors with 59 apartments ranging from one to four bedrooms.

- Integrated Crestron Control system
- Crestron DALI Lighting System
- Bowers & Wilkins Speakers
- Television Distribution with Satellite Television feeds for digital TV, DAB & FM radio
- 2-way communication and camera display door entry

Smartcomm have brought their audio visual specialist expertise to the sold out apartments, using innovative technology including lighting, music, HVAC, blind control and temperature systems, all controlled by an elegant, slim Crestron System 7" Colour Touch Panel.
