

Environmental Policy Statement

Smartcomm Ltd is committed to working to minimise the environmental impact of our audio-visual installation services and support operations. We are also committed to ensuring that we are continually improving our environmental performance.

We are committed to promoting environmentally friendly working practices by encouraging communication with, and involvement of, all staff in the implementation of this policy.

It is the policy of Smartcomm to:

- Meet or exceed all the environmental legislation that relates to the Company.
- Minimise waste by evaluating operations and ensuring they are as efficient as possible;
- Minimise toxic emissions through the selection and use of its fleet and the source of its power requirement.
- Actively promote recycling both internally and amongst its customers and suppliers.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Dispose of our waste in a considerate manner and maximising the amount of material we are able to re-cycle;
- Communicate the importance of environmental issues to our people.
- Review and revise this policy annually or as business circumstances change.

The Managing Director will ensure that this policy is understood by all members of staff and those working with customers on project sites and within our own premises.

Signed:

Steven Worrell
